

## **CERTIFICATE IN WILD EDIBLE FUNGI, CROP FARMING AND VALUE ADDED PRODUCT ENTREPRENEURSHIP AND SELF-RELIANCE**

**Subject Code: CSP-108**

### **Scope of the Course:**

Mushroom farming is one of the most beneficial agri-business that it start with a low investment and less space. Mushroom cultivation in India is growing as an alternative source of income for many people. Wild vegetables are a common and important source of food and nutrition in the rural areas. Indians have been using wild vegetables as food for thousands of years, but unfortunately, we lost the track somewhere at the dawn of modern times. Tribal and rural Indians still attach great importance to these wild vegetables. Some wild vegetables have a dedicated cult following in urban areas and large cities, where they are sold in specialized markets.
