

## CERTIFICATE IN AUTOMOBILE, MEDICAL PURPOSE CHEMICAL PRODUCTS ENTREPRENEURSHIP AND SELF-RELIANCE

**Subject Code: CSP-120**

### **Scope of the Course:**

This is a three-month duration certificate course that can be pursued in a wide range of fields starting from MSME start-ups, small-scale industries to large-scale industries. you may setting up new MSME/ Startup for manufacturing/ processing of following goods/ items/products.

### **Personal care products manufacturing and packaging plant:**

- Antiseptic liquid manufacturing start-ups
- Antiseptic soap manufacturing start-ups
- Antiseptic Saving Cream manufacturing start-ups
- Toothpaste manufacturing start-ups
- Tooth powder manufacturing start-ups
- Antiseptic liquid hand wash manufacturing start-ups
- Bandage stripe manufacturing start-ups
- Surgical Bandage manufacturing start-ups
- Surgical cotton manufacturing start-ups
- Alcohol manufacturing start-ups
- Bleaching Powder manufacturing start-ups
- Sugar manufacturing start-ups
- Aspirin manufacturing start-ups
- Mouthwash manufacturing start-ups
- Caustic soda manufacturing start-ups
- Mothballs manufacturing start-ups etc.

### **Sanitizers and Disinfectants manufacturing plants:**

- Both type Chlorine Based Sanitizers and QUAT Based Sanitizers manufacturing start-ups
- Employee Hand Sanitizers manufacturing start-ups
- Surface Sanitizers manufacturing start-ups
- Disinfecting Chemicals manufacturing start-ups
- Glass and Dishware Sanitizing manufacturing start-ups etc.

### **Auto Garage chemical Products manufacturing plant:**

- Additives manufacturing start-ups
- Air Fresheners manufacturing start-ups
- Antifreeze and Coolants manufacturing start-ups
- Automotive Cleaners and Degreasers manufacturing start-ups
- Automotive Greases and Lubricants manufacturing start-ups
- Automotive Hydraulic Oil manufacturing start-ups
- Brake Fluid manufacturing start-ups
- Diesel Exhaust Fluid (DEF) manufacturing start-ups
- Flushes manufacturing start-ups
- Fuel Stabilizers manufacturing start-ups
- Power Steering Fluid manufacturing start-ups
- Radiator Conditioners and Protectants manufacturing start-ups
- Starting Fluid manufacturing start-ups

- Transmission Fluid manufacturing start-ups
- Washer Fluid and Windshield Treatments manufacturing start-ups etc.)

#### **Car Detailing chemical Products manufacturing plant:**

- Car wash soaps manufacturing start-ups
- Cleaners & dressings manufacturing plant (detox wash & seal for ceramic coatings manufacturing start-ups Brake up wheel brightener manufacturing start-ups
- Final touch ultra-express spray wax manufacturing start-ups
- Super blue tire & rubber dressing manufacturing start-ups
- Black out tire manufacturing start-ups
- Rubber & wheel well dressing manufacturing start-ups
- Dress pro dressing tank manufacturing start-ups
- non-silicone engine & tire dressing manufacturing start-ups
- black cherry car wash soap w/wax manufacturing start-ups
- heads up super high foaming car wash & prep soap manufacturing start-ups
- Special force plus all-purpose cleaner manufacturing start-ups
- Bug off cleaner manufacturing start-ups
- Magic cleaner concentrate for interiors & exteriors manufacturing start-ups
- Tire & whitewall cleaner w/darkening agent manufacturing start-ups
- Ex con concrete -rust - tree sap & scale remover manufacturing start-ups
- Ready to use glass cleaner manufacturing start-ups (no streaks or smears)
- Crisp streak free glass cleaner manufacturing start-ups
- Wonder lube clay bar & Nano skin auto scrub lubricant manufacturing start-ups
- Special exterior chemical manufacturing start-ups and **other allied MSME/ Startup entrepreneurship.**

Knowledge gained by this course may also prove to be very useful as it covers all essentials information that must be needed for any such start-ups ranging from planning till execution. This course aims at providing adequate skills required for a establishing particular start-ups/entrepreneurship to candidates. The course is different from traditional academic programmes as it deals more with LIVELIHOOD-based studies rather than focussing on only theoretical knowledge.

One of the biggest advantages of pursuing this course against common certificate courses is that this course follow pattern discussed in new education policy that is ABCDE (Academic bank of credit System for the development of entrepreneurship) that focuses more on practical knowledge than only theoretical one. Apart from this, the work experience candidates gain during the course increases their probability of getting established start-ups with good turn-over.

**NOTE-** there were many start-ups that we could choose as to earn our livelihood but while choosing one should be aware about machineries and plants information that he/she could get from this most advanced livelihood course more over out of above mentioned start-ups, one may choose group of products to manufacture from specific type of manufacturing plant whose complete knowledge can also be gathered by candidates through the session of this course.
