

DIPLOMA IN RENEWABLE AND SOLAR ENERGY ENTREPRENEURSHIP

Subject Code: DSP-403

Scope of the Course:

Solar power business in India is mollycoddling. The opportunity in this sector is dynamic and extolling. Every person in this country today has a well economic space to edify his/her solar business without thinking of capital and ancillary expenses. By doing this course, you may setting up new MSME/ Startup for manufacturing/ processing of following goods/ items/products.

Solar Energy Based Electric Equipment Manufacturing

- Outdoor motion sensor solar lights manufacturing
- Solar water heater, solar powered outdoor lights manufacturing
- Solar rechargeable fan manufacturing
- Solar portable smartphone charger manufacturing
- Solar flashlight manufacturing
- Solar gadgets manufacturing
- Solar cooker manufacturing

Other Solar Units Manufacturing: Solar panel, Solar fan, Solar lamp, Solar power bank, Solar geyser, Solar dryer, Solar water heater, Solar heating system, Solar Water Purifier, Solar swimming pool, Solar washing machine, Solar Air Conditioner etc.

Solar based Agro Equipment Manufacturing: Solar pump, solar pumping system, solar farming, solar park, Mower Solar Machine, Solar Green House etc.

Solar Electricity Gadgets and Equipment Manufacturing: Solar UPS, Solar inverter, Solar cell, solar mobile charger, solar power bank, solar generator, solar projector, solar semiconductor etc.

Solar Energy Based Lights Equipment Manufacturing: Solar Home Light, Street lighting system, Solar Garden Light System, Solar lantern, Solar emergency light, Solar LED bulb, Solar Courtyard Light, Solar gate light, Solar flashlight start-up, Solar path light, Solar hanging light, Solar lighter, Solar Tube light, Solar road stand light, Solar clock, Solar calculator etc.

Solar Energy Based Kitchen Equipment Manufacturing: Solar cooker, solar oven etc.

List of Product-Oriented Solar Business Opportunities: Sell products, distributor, sell aftermarket products, sell 3rd party provided services, invent solar products, find niches, produce informational products, produce financial products, develop & own solar projects, independent solar consultant, financing consultant, solar appraisal, solar repairs and **other allied MSME/ Startup entrepreneurship.**
