

DIPLOMA IN SEMI-CONDUCTOR AND LIGHTING GOODS ENTREPRENEURSHIP

Subject Code: DSP-411

Scope of the Course:

Given today's rapid technological innovation, the Lighting and semiconductor industry can look forward to growth in double digits. The semiconductor industry has been a pioneer in digitization since its inception, it has been offering digital services and pursuing new digital business models. Appended are various type of lighting industry with respect to the bifurcations of attributes and you may setting up new MSME/ Startup for manufacturing/ processing of following goods/ items/products:

Broad bifurcation of lighting types: (LED Lamps, Self-Ballasted LED lamps, Down Lighters LED, Street Lights LED, Luminaries, Indoor Luminaries, Outdoor Luminaries etc.)

By End-Users: (Outdoor Lighting, Indoor Lighting etc.)

By Applications: (Commercial, Residential, Industrial etc.)

Type of Lighting Products: (LED Lights, Street Lights, Wall Light, Tube Light, Decorative Light, Fancy Light, Light Fittings, CFL Light, Home Lighting, Industrial Lights, Electronic Lights etc.)

Lighting Fixtures: (LED Lighting Fixture, Tube Light Fixtures, Brass Lighting Fixture, Electrical Lighting Fixtures, Projection Light Fixture, HID Fixture, LED Bulb Fixture, Popular Lighting Fixtures Products, LED Lighting Fixture, LED Surface Mounted Fixture, LED Surface mounted fixture made of high quality SS or housing duly powder coated fittings, Led Spotlight Fixture, Slim Box Type Fixture, Fcg Led Flame Proof small Monochromatic Clean Room Lighting Fixture, Mounting Type: Wall Mounting, SEPL 220V Top Open able Rectangular Light Fitting, Electronic Probe Type Fixture, Garden Light Fixture, 1170mm T5 Square Led Tube Light Housing, Table Lamp Indoor Decorative Table Light, Aluminum / Metal Cool White 120W LED Low Bay Light Fixture, Aluminum / Metal Flameproof Lighting Fixtures, 30W to 240W, Copper LED Box Type Fixture and **other allied MSME/ Startup entrepreneurship.**
