This course aims at providing adequate skills required for a establishing particular start-ups/entrepreneurship to candidates. The course is different from traditional academic programmers as it deals more with LIVELIHOOD-based studies rather than focusing on only theoretical knowledge. One of the biggest advantages of pursuing this course against common certificate courses is that this course follow pattern discussed in new education policy that is ABCDE (Academic bank of credit System for the development of entrepreneurship) that focus more on practical knowledge than only theoretical one. Apart from this, the work experience candidates gain during the course increases their probability of getting established start-ups with good turn-over.
